Symbiosis 1971 - Passion for Excellence

The journey of a thousand miles begins with a single step. But it involves deliberation and much hesitation. The Symbiosis journey however began with a surge of enthusiasm spurred on by an incident that, in itself, makes a poignant tale. It is an inspiring tale and in the words of the founder of Symbiosis, Dr. S. B. Mujumdar, it says:

“It was afternoon on a hot day. I was standing near a window of my house overlooking the first hostel block, of which I was a rector. A strange thing happened. A girl walked up to the window of the boy’s hostel room, quickly handed over something and disappeared. My curiosity was aroused and I kept watching the girl walking up to the window day after day and suspected, like any other rector would, that an affair was afoot.

So one day, I made up my mind and walked up to the door and knocked. When the door opened, I saw a Mauritian student lying in bed. His face was pale and his eyes seemed to have sunken low. I was puzzled!!

When I turned to the boy for an explanation, he said, “Sir, I have an attack of jaundice and I’m feeling extremely weak. I cannot stand up, nor walk a few steps. A girl from my country brings me food. However, since ladies are not allowed to enter the boy’s hostel, she hands over the lunch box through the window.”

I was stunned, after all, it wasn’t the type of ‘affair’ I had expected. I was very much pained and decided something had to be done about this. That was the instance! A golden moment! “Symbiosis was born”.

Symbiosis is a term in life science, meaning ‘living together of two different organisms for the benefit of each other. Dr. S.B. Mujumdar, himself a professor of botany, thought this name apt for the institution. Thus, the institution was founded to alleviate the problems faced by foreign students coming to India. At the time, these problems included- accommodation, meals, medical care, guidance, coaching, information about the city etc.

Symbiosis has come a long way since then. Today it is a home to students from more than 85 different countries. These students are offered the best learning resources, industry, exposure, a strong International Students' Alumni network, a global recognition and above all, a truly enriching India experience.

The colossal Symbiosis Law School, Pune was established in 1977 by ace Dr. S B Mujumdar.

Earlier the School was affiliated to the University of Pune, and later it became an integral part of Symbiosis International University in 2002. It upgraded the excellence in terms of teaching, learning and research. By 1985, it was the first college to offer five year integrated LLB program, the BBA LLB program. It was one of the first three constituents when Symbiosis was conferred the deemed university status by MHRD, in 2002. Today, the exemplary law school has been ranked among the top three law schools out of twelve hundred in India.

Symbiosis Law school Pune also offers one year LLM course with seven specializations. The superlative University is standing in the front linedue to its excelling ignitors such as cutting edge curriculum, comprehensive student development programs, strong internationalization with a strong emphasis on Research. The school is an abode of eighteen hundred students across integrated BA/BBA LLB Honors programs, three year LLB and one year LLM, competent faculty, ICT-driven rich learning resources and an ecosystem of excellence.

Henceforth, the output of the school has kindled the chandeliers of success and superlative results by giving four high court judges, scores of district judges and magistrates, senior leadership positions in top law firms, civil services and corporate apart from academic leadership.

Community Legal Service Program of the law school won the 'Herbert Smith free hills' award, and the Law School's leadership is engaged with national and international quality legal educational initiatives, which link all stakeholders.

& Founder and President,
Symbiosis

Knowledge is the power to think clearly, to act well in the world's work, and the power to appreciate life.

- Brigham Young

The quote above personifies the cardinal values of our institution. Every graduate of Symbiosis Law School, Pune, has inculcated these values, not only towards academic brilliance, but also towards moral understanding and considerations. This assurance comes from the fact that every student at Symbiosis Law School, Pune, has undergone a rigorous admission procedure, be it the five year programme, the three year programme, or the Master's programme.

Symbiosis Law School, Pune, has grown to be one of the top law schools in the country. Such standards are a product of our sheer belief that knowledge is power. And this knowledge is imparted through a symbiotic relationship between the faculty and the students. In pursuance of our goals towards internationalization, we offer innovative courses to our students to bridge the gap between fields that are legally united, but are culturally diverse. Our emphasis on research and publication, especially in international journals, holds testimony to this fact.

It is in the holistic education that we provide that the skills acquired by our students therein transform them into legal assets in diverse career pathways. However, the high placement rate at Symbiosis is only a small example of the vast impact of our institution. Our alumni have found their way to be sitting judges of various High Courts and subordinate courts throughout the country, members of governmental commissions, civil servants, and founders of legal institutions that has changed the landscape of law in India; some have pioneered their own initiatives that have altered people's lives for the better.

This legacy is renewed by every batch of students, and I give my best wishes to the 2025 batch of students, with a hope that they constantly strive to maintain the legacy.

I wish them all the best in their future endeavours!

Director's Message

Dr. Shashikala Gurpur

Director
Symbiosis Law School, Pune
Dean, Faculty of Law,
Symbiosis International
(Deemed) University
Jean Monnet Chair Professor
(EUC-LAMP co-funded by EU)

The creation of Symbiosis Law School, Pune, as a keen community which would strive for not only academic excellence but more importantly to nurture individuals who are willing to better the world with their enhanced skills, has been a successful venture. With a hard-working student body and dedicated faculty, the institution has built a nest of teeming legal minds. The labours of vibrant alumni and an irreplaceable staff contributes to each effort that Symbiosis undertakes to create an environment that supports notions of justice and universal welfare.

The spirit of innovation and sustainable development runs through the veins of SLS, Pune, and the ideals of a globalised development innate in the very vision of the institute has led to each batch forming a unique community of intense intellectual exchange. The dynamic nature of the workforce in every avenue of law is reflected in the manner our curriculum transforms in order to adapt for the morphing career paths that each member of the SLS family shall tread on. It has been this understanding of the world's transient nature that has led our alumni to earn accolades in the legal field, government, non-profit organisations and corporate industries.

While our students walk through the rigorous courses handpicked for each batch, they learn to not only be good lawyers but better human beings who find contentment in the field of law, one that has aimed at bettering lives of the unfortunate. While rankings are mere numbers, it creates an impetus within us to constantly strive for what the institute stands; global understanding and best legal practices. Thus, the students of the 2025 batch are more than well-prepared to take on the tasks and challenges the world has to offer and create another legacy for both Symbiosis Law School, Pune, and themselves.

My best wishes lie with the batch of 2025!

Teaching Methodology

Classroom

The faculty of SLS conducts lectures on an hourly basis with the students which constitute a major portion of the teaching. The Teaching plan and its execution are designed and executed in such a manner that it encourages students to participate in discussions and maximize class participation to make the sessions more interactive. Further teaching aids such as projectors, microphones, speakers and PCs, employed in all classrooms make the teaching process simpler and better.

Guest Lectures and Seminars

To provide our students a better understanding over a particular topic and a holistic view of the legal application of concepts, various guest lectures with prominent national and international intellectuals are also organized very frequently as a routine teaching process. We at SLS encourage our students to take part in the seminars and Co-Curricular activities and often organize them at our campus as well. This not only gives a better insight into the topic, but also helps to improve the speaking and learning capacities of the students

Internships

We believe that classrooms can never teach everything to the student in a profession like law where one keeps learning throughout his life. We prefer that field knowledge is an integral part of the learning process. Hence, we encourage our students to take up more internships in order to gain more experience in their respective fields. Furthermore, a minimum of five internships each of not less than four weeks is necessary for graduation.

Exchange Programme

Our Exchange Programme is in collaboration with DAAD and includes several universities in Japan, Australia, Germany, Ireland, etc. It is a very unique feature of SLS as it helps not only in the exchange of ideas but also in different cultures, thoughts and mindsets, hence broadening the scope of our students' avenues, providing a sense of universal togetherness. It also furthers the student's education in international aspects of law.

Research

Symbiosis Law School, Pune encourages research writing to a great extent. We organize special lectures to teach students proper research methodology. Following the Harvard Bluebook format of writing we make our students habitual to research writing by giving them routine research work as part of their internal assessments. Many students also succeed in getting their papers published in journals of national and international repute. Students receive constant faculty guidance for the same.

Moot Courts and Mock Trials

Moot Courts and mock trials are one such practice in clinical legal education which plans students for lawyering in such a way to the point that the apprenticeship is minimized and frequently separated with. They are conducted regularly and count as a vital part of internal evaluation.
